Re: JAE MS 16324-1: "The Effect of School Capital Investments: A State-level Perspective," by Saani Rawat

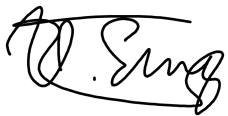

Dear Saani,

Thank you for allowing the editorial board of the *Journal of Applied Econometrics* (JAE) to consider the above article, submitted as a replication study.

I have received two referee reports, both from experts in the field. One referee recommends rejection, while the other suggests a "weak revise and resubmit." Given the reports and my own reading of the manuscript, I have decided against publication in the JAE. The main concern is that many aspects of the replication study have already been investigated in the Bureau of Labor Statistics (BLS) reports, as discussed in detail by one of the referees.

I am sorry I could not deliver a positive message.

Yours sincerely,

Tatevik Sekhposyan
